

GEOLOGY – 1727

The Geology Minor requires a broad selection of courses in geology and earth sciences, chosen through advisement. It is designed for a diverse clientele, many of whom desire to strengthen their employability. These include science majors contemplating a future in geophysics or geochemistry, students in environmental fields with a geological aspect such as urban studies, and students who may wish to be involved in land use planning.

REQUIRED COURSES: 7 credits

GES 101 Introductory Geology
