

## PSYCHOLOGY – 1724

The field of Psychology is broad and relevant to a variety of disciplines. The minor is offered for those students who will follow a systematic plan of study in psychology while completing a major in another department. Specifically, the minor is designed to give students a broad background in psychology. As designed, the minor is flexible and should meet the needs of many students. Accordingly, students should seek advisement to determine what courses would best suit their own particular interests and needs.

To fulfill the requirements of the minor, students will be required to take 21 hours in psychology to be distributed in the following manner:

**REQUIRED COURSES:** 3 credits

PSY 101 Introduction to Psychology

**ELECTIVE COURSES:** 9 credits

Electives are selected by advisement. Students must choose at least one course from three of the following four areas.

**Biological Cognitive Psychology:**

PSY 304 Learning: Theory and Research

PSY 308 Sensation and Perception PSY 321 Comparative Animal Psychology
