All College Elective		3		All College Elective		3	

¹First year students should be advised to register for the Basic Communication, Foreign Language, and Mathematics requirements within the first and second semesters, if these requirements were not satisfied via high school. If these requirements were satisfied via high school, please advise students to register for other GE2K courses and introduction courses to the accepted/intended major. The Basic Communication and Mathematics requirements must be completed prior to the end of the sophomore year and are often prerequisites for acceptance into a major/coursework in the major. Please advise students to register for these courses within the first and second semesters.

²GE2K courses must be selected from lists of approved courses. Courses used to fulfill GE2 Arts, Applied Science & Technology, Humanities, Social Sciences, Math/Sciences, and Civilizations areas must be fulfilled by courses from two separate academic disciplines.

DISCLAIMER: Anticipated graduation within four consecutive years is contingent upon the maintenance and successful completion of a full-time academic load of 15+ credit hours per semester, declaration of the major prior to completion of 45 credit hours, and the completion of a total of 123 credit hours for graduation.
