

Wireless Expansion Plan
August 2008

Wireless connectivity is currently available in a number of locations on campus, including:

Butler Library

- Main Lobby
- StudyQuad
- Copier Lounge
- Information Commons
- Creative Studies Balcony

Student Union

- Fireside Lounge
- Commuter Lounge
- Assembly Hall and surrounding hallway
- Upper and lower areas of the main floor

Bulger Communication Center

- Main Lobby
- N2D

Campus House

Classroom Building

- Room B325 and surrounding area

Chase Hall

- Room 218 and surrounding area

Science Building

- Room 104 (covers basement ESSE labs)
- Room 206 (Physics Labs w/laptop cart)

Rockwell Hall

- Main Lobby

Upton Hall

- Room 210 (ground floor hallway covering most of the Design/Interior Design labs)

Wireless service is limited to Internet connectivity only, with no campus network connection. The goal for expansion of wireless service is to provide Internet connectivity to as much of the campus property as possible. The wireless network will continue to be a private one, requiring authentication through a network login. The long term plan is under development.

The short term priority list for expansion includes the following previously approved locations:

Residence Hall Locations

- Perry/Neumann Lounge
- Moore Complex Lounge

Classroom Building Lounge

Sports Arena

Dining Services

- Campbell Student Union - coordinated with renovations
- Science Building Lobby

Weigel Health Center – administrative request

President's Conference Room

Instructional Resources Conference Room
