

THE COMPANY: Harris Computer Systems

Harris Computer Systems has been providing complete Customer Information System (CIS) and Financial Management solutions exclusively to public and municipal utilities for over 30 years. Our track record speaks for itself. We are an experienced, solid company with proven solutions that are presently in use by over 3,000 customers across North America. We are the number one provider of powerful Financial and CIS solutions because of our specialized understanding of the electric, water and gas utility industry and our commitment to customer relationships.

Harris Computer Systems is a member of the [Constellation Software Inc.](#) group of companies. Constellation Software is a rapidly growing conglomerate of vertical market software (VMS) companies; each focused upon dominating its respective market niche. Constellation's growth is based on a simple strategy: identify promising VMS firms; acquire them; and then integrate them into the Constellation family while building on their fundamental strengths to help them become world class organizations.
