

**Motion Regarding Writing Across the Curriculum Approval Process
for Intellectual Foundations**

Introduced by the Instruction & Research Committee at the May 2008 Senate

Whereas the current process that designates a course section as a Writing Across the Curriculum (WAC) section has atrophied and needs renewed oversight in order to ensure the goals of the requirement are being fulfilled and the rigor of the requirement is maintained,

Be it further resolved that a new WAC approval process should be implemented, effective Fall 2010, wherein departments would submit a Curriculum Committee approved course to SIFOC for consideration of the WAC designation (in a manner similar to the current IF approval process) for the course which can be applied as needed to sections by the department given faculty resources and student need.
