

National Student Exchange

Campuses by Payment Plan and Calendar: 2009-2010

TERMINOLOGY

PAYMENT PLAN

A = The student pays the host campus in-state or provincial tuition directly to the host campus.

B = The student pays normal tuition to the home campus.

OTHER

1:1 = The host campus will accept eligible students first from those campuses where it intends to place its own students. Other students will be accepted as space permits.

EVEN = The host campus will accept no more than the number of students it intends to send on exchange.

UNEVEN = The host campus will accept a few more students than it intends to send on exchange.

OPEN = The host campus will accept qualified students who apply.

CALENDAR

Q = Quarter Calendar (The calendar year is divided into four equal sessions with fall, winter, and spring making up an academic year which is the equivalent of two semesters.)

S = Semester Calendar (The academic year is divided into two equal terms or sessions.)

Quarter credit hours generally earn one-third less value than semester credit hours. Conversely, semester hours generally earn one-third more value than quarter hours. Member campuses will vary in the way that credit conversions are made between these two calendars. Talk to your NSE coordinator and academic advisor.

If you are considering exchanging to a campus that has a calendar different than your own, an exchange for the full academic year is recommended. Students who exchange for less than a full academic year from a campus on the semester calendar to one on the quarter calendar, or vice versa, may not be able to maintain normal academic progress toward their degree objectives, may encounter difficulty with timely disbursement of federally-funded financial aid, and may have difficulty in adjusting to the change in calendar.
